

Spring STEM Thinking Challenge

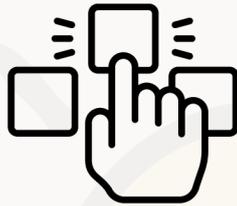

What Could It Become?

Look closely at an everyday object. It might seem ordinary at first... but with imagination, it can become something new!

Step 1: Choose an Object

(examples)

- Cardboard tube
- Small box
- Craft stick
- Plastic lid
- Rock or stick
- Something else: _____

Step 2: Think Like an Inventor

Ask yourself:

What could this become if I changed it?
What if I combined it with something else?
How could it help solve a problem?
Could it be used outside?
Could it be part of a story or invention?
(There are no wrong answers.)

Step 3: Draw & Label

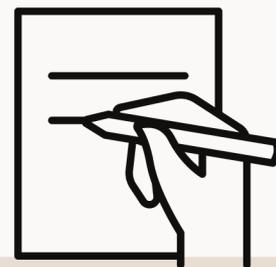

Draw your favorite idea below.
Add labels or words if you'd like.

Step 4: Write to Make Meaning

Finish one sentence:

At first, I thought this was a _____.
Now I think it could be a _____.
